Needs

What resources do you need to achieve the 3-month goal in your aspiration area?

Information and Access to Say Yes to confirm exactly what they are working on in the schools. We are interested in learning more about the assessments to help determine

what needs are they tracking and what gaps would The Hub be able to fill. We are

scheduled to attend an upcoming SayYes meeting at The City Club on January 17, 2020

where our goal is to be able to obtain the information we have been trying to gather.
